

KAELO

SIT BACK, RELAX
AND READ ME

THANK YOU

Thank you for your purchase and welcome to the Kaelo family.

Our passion has always been to create something that not only kept wine perfectly chilled, but also looked beautiful and was completely effortless to use.

More than function and form, we wanted to make something that could spark conversation, bring people together and be great fun to use.

I'm excited about what we've achieved, and I hope you're equally as excited about using and enjoying your new Kaelo.

Thank you again.

A stylized, handwritten signature in black ink, consisting of several overlapping, fluid strokes that form a recognizable name.

KEVIN JABOU

Founder & Inventor

YOUR KAELO

Kaelo offers a fun, effortless and beautiful way to serve and enjoy wine.

Kaelo's patented dry-cooling technology creates a jacket of cold air which wraps around the bottle, keeping your wine within 1-2 °C of its opening temperature.

Your drink will be perfectly chilled, from the first glass to the last.

TOUCH & SERVE

To activate, simply touch any part of the crown with your finger.

Your Kaelo will be at temperature within seconds, and ready for a chilled bottle.

LIGHTING COLOUR SELECTION

Tap the crown 3 times, then scroll through the colours by touching the crown repeatedly.

To lock in a colour, do not touch the crown for 5 seconds.

Tap the crown 4 times and the halo lighting will gently fade through the full spectrum of colours.

STANDBY

Once activated, your Kaelo will stay perfectly chilled for 2 hours, then go into standby mode. Should you wish to use your Kaelo for longer, simply touch the crown during use and it will restart its 2 hour cycle.

Kaelo can be manually put into standby mode. To do this touch the crown for 2 seconds.

OPERATING ENVIRONMENT

Kaelo is intended to be used in ambient temperatures between 10-32°C.

If used outside of these temperatures, there may be a reduction in performance.

Prolonged use outside of this range may cause damage to the product.

CLEANING

When cleaning the crown, use a soft cloth that will not scratch the mirror-polished finish.

If the Kaelo is used for long periods of time, or in cold ambient temperatures, frost can develop in the chamber. This is normal and it will eventually evaporate.

5 YEAR WARRANTY

**Activate within 3 months of purchase by
registering at kaelo.co.uk/activate**

Should your Kaelo experience any quality or performance issues, within 5 years of purchase, we will repair or replace it for free.

The warranty does not cover damage resulting from accidents or abusive use.

In order to be valid, your Kaelo must feature an authentic Kaelo serial label.

IN THE LOOP

Stay up to date with all the goings on at Kaelo.
